

MSDS Warm Milk and Honey Fragrance Oil

Safety Data Sheet

1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade Name: Warm milk and honey fragrance

1.2 Relevant identified product use

Synthetic aromatic material. Perfume/fragrance material for manufacturing purposes only

1.3 Details of the manufacturer/supplier of the safety data sheet

Supplier:
Wic Supplies

1 Hamilton Avenue Earlwood, NSW, Australia.

Telephone Number: +61423310799

2. Hazards Identification

2.1 Classification of the substance or mixture

Class and category of
danger:

Skin Corrosion / Irritation Category 2

Eye Damage / Irritation Category 2A

H315, Causes skin irritation.

H319, Causes serious eye irritation.

2.2 Label elements

Hazard pictograms

Signal Word: Warning

Hazard statements

H315, Causes skin irritation.

H319, Causes serious eye irritation.

Precautionary Statements P264, Wash hands and other contacted skin thoroughly after handling
P280, Wear protective gloves/eye protection/face protection. P302/352,
IF ON SKIN: Wash with plenty of soap and water. P305/351/338, IF IN
EYES: Rinse cautiously with water for several minutes. Remove contact lenses,
if present and easy to do. Continue rinsing. P332/313, If skin irritation
occurs: Get medical advice/attention. P337/313, If eye irritation persists:
Get medical advice/attention. P362, Take off contaminated clothing and
wash before reuse.

2.3 Other Hazards

no data available

3. Composition/Information on Ingredients

MSDS Warm Milk and Honey Fragrance Oil

Contains:

Name	CAS	EC	%	GHS Classification
delta-Dodecalactone	713-95-1	211-932-4	59.00%	Skin Irrit. 3;H316

Substances with Community workplace exposure limits, not listed above:

Not Applicable

4. First Aid Measures

4.1 Description of first aid measures

Inhalation:

in the event of exposure to vapors, immediately remove from the area to a fresh air environment. Individuals showing evidence of inhalation exposure should be taken to an uncontaminated area. Obtain medical advice immediately.

Eye Exposure:

In the event of contact with the eyes, irrigate with water for at least 15 minutes; obtain medical advice if irritation persists.

Skin Exposure:

Remove contaminated clothes. Wash skin with large volumes of water. If irritation persists, or any sign of tissue damage is apparent, obtain medical advice immediately.

Ingestion:

In the event of accidental ingestion, rinse mouth with water. Give up to one tumbler (half pint) of milk or water. Obtain medical advice immediately. Do not induce vomiting.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms: no data available

4.3 Indication of any immediate medical attention and special treatment needed

Treatment:

As in all cases of potential poisoning, obtain medical advice immediately.

5. Fire-Fighting measures

5.1 Extinguishing media

Suitable: Carbon dioxide (CO₂), Dry chemical, Foam
 Unsuitable: Do not use a direct water jet on burning ma

5.2 Special hazards arising from the substance or mixture

During fire fighting: Water may be ineffective

5.3 Advice for firefighters

Further information: Standard procedure for chemical fires

6. Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.

6.2 Environmental precautions

Keep away from drains, soil, and surface and groundwater.

MSDS Warm Milk and Honey Fragrance Oil

6.3 Methods and materials for containment and cleaning up
Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapors. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

6.4 Reference to other sections

Not Applicable

7. Handling and Storage

7.1 Precautions for safe handling

Apply according to good manufacturing and industrial hygiene practices with proper ventilation. Do not drink, eat or smoke while handling. Respect good personal hygiene.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry and ventilated area away from heat sources and protected from light in tightly closed original

7.3 Specific end uses

No information available

8. Exposure Controls/Personal Protection

Appropriate Engineering Controls:

Ventilation: Use engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations.

Personal Protective Equipment:

Eye protection: Ensure that eyewash stations and safety showers are close to the workstation location. Chemical resistant goggles must be worn.

Hand protection: Wear chemical resistant gloves suitable for this material as determined by a hazard assessment. Gloves should be discarded and replaced if there is any indication of degradation or chemical

Skin and body protection: Wear protective clothing suitable for this material as determined by a hazard assessment.

Respiratory protection:

Respiratory protection should be worn when workplace exposures exceed exposure limit requirements or guidelines. If there are no applicable exposure limits or guidelines, use an approved respirator where there is a potential for adverse effects, including but not limited to respiratory irritation or odor, where indicated or required by the exposure assessment. Selection of air-purifying or positive-pressure supplied air will depend on the results of the exposure assessment which includes an evaluation of the specific operations and the actual or potential airborne concentrations. The type of cartridge or filter to be used must be selected and approved for the chemical, class, or classes of chemicals likely to be encountered in the workplace. For emergency conditions, use an approved positive-pressure self-contained breathing apparatus.

General hygiene considerations: Handle in accordance with good industrial hygiene and safety practice.

Remove contaminated clothing and protective equipment before entering eating areas. Wash hands before breaks and immediately after handling the product.

9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Appearance: Not determined

Odour: Not determined

MSDS Warm Milk and Honey Fragrance Oil

pH:	Not determined
Initial boiling point /	Not determined
Flash point:	> 93.5 °C Not
Vapour pressure:	determined Not
Relative density:	determined Not
Solubility(ies):	determined
9.2 Other information:	None available

10. Stability and Reactivity

10.1 Reactivity

Presents no significant reactivity hazard, by itself or in contact with water.

10.2 Chemical stability

The product is stable and non-reactive under normal conditions of use, storage and transport.

10.3 Possibility of hazardous reactions

Material is stable under normal conditions.

10.4 Conditions to avoid

11. Toxicological Information

Heat, flames and sparks. Temperature extremes and direct sunlight.

11.1 Information on toxicological effects

This mixture has not been tested as a whole for health effects. The health effects have been calculated using the methods outlined in UN GHS.

10.5 Incompatible materials

Avoid contact with: strong acids, alkalis or oxidising agents.

Causes serious eye irritation.

10.6 Hazardous decomposition products

Assumed Toxicity Value (LD50 or ATE) for Acute Oral Toxicity:

Assumed Toxicity Value (LD50 or ATE) for Acute Dermal Toxicity:

Assumed Toxicity Value (LC50 or ATE) for Acute Inhalation Toxicity:

Inhalation Route:

12. Ecological Information

Ecological effects: No specific data available on this product.

Persistence and Degradability: No specific data available on this product.

Bioaccumulation: No specific data available on this product.

Other Adverse Effects: No specific data available on this product.

13. Disposal Conditions

13.1 Waste treatment methods

MSDS Warm Milk and Honey Fragrance Oil

Do not allow product to reach sewage systems. Dispose of in accordance with all local and national regulations.
Send to a licensed waste management company. The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container.

14. Transport Information

Regulator	Class	Pack Group	Sub Risk
U.S. DOT (Non-Bulk) Chemicals NOI	Not regulated as dangerous goods.		
ADR/RID (International Road/Rail) Environmentally Hazardous Substance, Liquid, n.o.s.	Not regulated as dangerous goods.		
IATA (Air Cargo) Environmentally Hazardous Substance, Liquid, n.o.s.	Not regulated as dangerous goods.		
IMDG (Sea) Environmentally Hazardous Substance, Liquid, n.o.s.	Not regulated as dangerous goods.		

15. Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
None additional
15.2 Chemical Safety Assessment
A Chemical Safety Assessment has not been carried out for this product.

16. Other Information

Concentration % Limits: SCI 3=16.95%
Total Fractional Values: SCI 3=5.90

Key to revisions:

2.1 Classification of the substance or mixture

Key to abbreviations:

Abbreviation	Meaning
H316	Causes mild skin irritation.
P332/313	If skin irritation occurs: Get medical advice/attention.
Skin Irrit. 3	Skin Corrosion / Irritation Category 3
